VC Funding Helps OH's Startups Thrive:

AmplifyBio, based in West Jefferson, is a preclinical contract research organization (CRO) specializing in advancing human health through research and development. The company focuses on vaccine technologies, bioanalytics, drug development, and cell and gene therapy.

Founded by three women in Columbus, Tandem is an online marketplace addressing staffing shortages in the childcare industry. The platform connects childcare centers with qualified providers for babysitting, childcare, and education services. Tandem has enabled over 20,000 shifts across 200+ childcare centers, utilizing 1,000+ compliant workers, improving the care industry for both families and providers.

Power to Hydrogen of Columbus creates cost-effective systems for clean hydrogen production. Their technology generates high-pressure hydrogen and oxygen, while also providing energy storage. They aim to produce hydrogen for less than \$2/kg, making it competitive with fossil fuels, helping industries, transportation, and power companies affordably transition to cleaner energy sources.
